## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-7 are rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

Claim 1 is narrative in form and replete with indefinite and functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device or method. The claims must be in one sentence form only. There must be sufficient antecedent basis for all limitations in the claim. Note the format of the claims in the patents cited.

Claims 2-7 are also rejected as being dependant upon rejected base claim 1.

### ***Information Disclosure Statement***

3. The information disclosure statement filed 10 June 2005 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent or document listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered.

***Allowable Subject Matter***

Claims 1-7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
